HELP FOR DIABETICS ON BURY MARKET

Bury Market proved to be the perfect location for an information day by Bury Diabetic Support Group.

"It was a fantastic success," said the group's Geoff Goldberg. "We had a constant stream of visitors and gave out material on all areas of diabetic care, alongside free testing meters provided by Freestyle. And with the wonderful services of the specialist diabetic nurses, we were able to offer testings for sugar levels."

Offering their help were PALs, volunteers from ADAB, Macmillan Nurses, and other agencies.

Geoff added: "This event clearly showed that diabetes is a massive concern to the public and that further work is badly needed to offer the coverage required. We would like to thank Craig Allen and all his staff from Bury Market who gave us so much support and encouragement."
